ANTI-ENTROPY VERSUS ENTROPY: ILLUSTRATED SCIENCE

Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. Illustrated. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. The Big Bang Creation theory is a highly imaginary mythological tale that is built on the premise that 99.9999 of the universe does not exist. This means that it is so full of holes in its premise that it would make Swiss Cheese envious. Two questions present themselves here: What is the nature of the real universe? And secondly, why is a false model intentionally created? The answers are reflected in the title. The real universe is anti-entropic. The false model is intentionally the opposite. It defines the universe as entropic. It projects the concept of entropy as a universal condition, that as a lie, excuses the economic collapse of the world, or nations, that have become subjected to systems of empire. The system of empire is anti-economic. It is entropic. Both fronts are critical to be understood, because If they are not, the Ice Age Challenge will not be addressed and be responded to, so that the coming phase shift to glaciation conditions in the 2050s will overwhelm humanity, with very few people surviving the consequences. Thats why 3 books are needed to explore the issues. Mainstream cosmology regards the universe, the galaxies, and the solar system exclusively organized by gravitational force that is known to be the weakest universal force. Mass and gravity are all that Big Bang Theory allows. However, the next higher-order force in the universe is the electric force that is 39 orders of magnitude stronger than the gravitational force. It is expressed in plasma that makes up 99.9999 of the universe. This reality is not allowed to be recognized as an organizing force in the universe, because it...
